Wheeling Connection for Train No. 3.
An arrangement has been made whereby passengers for Wheeling may take train No. 3 leaving Pittsburgh Union Depot, over the Pan Handle route at 1:15 noon, central time, and connect at Wheeling Junction with train No. 213, reaching Wheeling at 3:25 p. m., daily except Sunday. By this arrangement, it will not be necessary to leave Pittsburgh until after dinner, and passengers arriving at Pittsburgh over connecting lines will have ample time for the noon meal before the departure of train No. 3.

A Wheeling Firm's Prospects.
Mr. E. B. Franzheim has returned from Greensburg, Pa., where he represented his firm, Franzheim, Glessey & Faris, with plans for the proposed Westmoreland county court house, to cost \$200,000. The Wheeling firm's plans have met with favor in Greensburg and it is thought there that they will be accepted early next week when the matter will be settled. Mr. Franzheim returns to Greensburg to-day. Franzheim, Glessey & Faris have planned and superintended the construction of five court houses in West Virginia, in addition to other important public and private work, and have always given excellent satisfaction to their patrons.

Blast Furnace Reduction.
The employees of the Riverside blast furnace at Benwood, have been asked to accept a reduction of 25 per cent. The men will not accept the reduction, and it is likely the blast furnace will shut down for a time. A cut was offered the men last fall, which they refused to accept, though furnacemen in other mills were reduced at that time. It is the general impression of the men that even if they accepted the proposed reduction they would not have much work for awhile, as the company has a lot of metal on hand now. The cut affects only the employees of the blast furnace and does not apply to any other department.

PASSION PLAY.

The Stereoscopic Representation Given Last Evening by

FATHER PAQUIN, OF ELM GROVE.

Interested and Delighted a Large Audience—Was the First Representation of the Famous Religio-Dramatic Work Seen in this City—Something of the Play and its Characters—To be Given in Other Towns of the State.

Last evening at the Church of the Immaculate Conception, Thirty-sixth street, a very interesting reproduction of the famous Passion play was given, under the direction of Rev. Father L. P. Paquin, of Elm Grove. The scenes and characters of the Passion play were reproduced by means of stereoscopic views, with explanatory lecture by Father Paquin.

The church was crowded and the entertainment proved delightful. The church was darkened for the occasion and the views were thrown on a large screen within the altar railing. Previous to the representation of the play, introductory views were given of the village of Ober-Ammergau, in which the wondrous drama is given every decade, and also of the theatre and the characters of the play. The views were very picturesque, being life-like and highly colored. Father Paquin briefly sketched the nature of the play, and his remarks were listened to with rapt attention.

The remarkable drama of the Passion performed by the villagers of Ober-Ammergau, in the highlands of Bavaria, was last given in 1890, and being given every ten years will not be given again until 1900. Its first production was in 1664, as a means of thanksgiving for relief from a pestilential plague. The decadal period began in 1680, and the play has since been enacted without interruption every ten years.

The characters are drawn from the lifetime of Christ. Among the pictures shown introductory to the tableaux of the play, last night by Father Paquin were: Christ, the Virgin Mary, Mary Magdalen, Peter, Paul and Judas.

The first view of the Passion play was the fall and expulsion of Adam and Eve from the Garden of Eden, and the next, the Redemption, and the Adoration of the Cross, the latter representing the promise of a Savior. Then followed the tableaux illustrative of the scenes of each act were explained by the lecturer before the others followed. There were fifty-eight views in all. The play consists of eighteen acts, each act consisting of several tableaux, and so life-like were the pictures depicting the characters that the spectators in the church were wonder-stricken.

The acts represented were: Christ's entry into Jerusalem, the Sanhedrin, or High Council, Christ's departure from Bethany, Christ's last journey to Jerusalem, the Last Supper, the Betrayal by Judas, the Garden of Gethsemane, with Christ on Mount Olive, Christ before Annas, Christ before Caiaphas, the Despair of Judas, Christ before Pilate, Christ before King Herod, the Scourging and Crowning with Thorns, Christ Sentenced to Death, Christ Bearing His Cross, the Crucifixion, Christ in the Tomb, the Ascension.

As stated above, there were many other views shown, and the entertainment was not only interesting, but instructive. Father Paquin has been prevailed on to give representations of this religio-dramatic work in Parkersburg, Weilsburg, Benwood and other places through the state. It was presented for the first time in Wheeling last night.

DEATH OF A. J. KOERNER.

A Resident of the South Side—Death was Sudden.

Anthony J. Koerner, a resident of the South Side, died suddenly yesterday morning about 7 o'clock. He was going to the Baltimore & Ohio depot, and had just got off the street car at the corner of Market and Twentieth streets, when he was prostrated. He was accompanied by his son, who carried him into the hook and ladder house, on Twentieth street. A cab was summoned and Mr. Koerner was placed inside it, but he died before reaching the office of Dr. Campbell, whither he was driven to secure medical assistance.

His remains were taken to Bruemmer & Hildebrand's undertaking establishment, where Coroner Schultz held an inquest and rendered a verdict: the death of the deceased was due to heart failure, which was the primary cause of his death. He was in his sixty-eighth year. The remains were removed to his daughter's residence, 3542 Wood street. Interment takes place at the Red Men's cemetery, of which he was the sexton some years ago.

Extensive Improvement.
Work on the new addition to the Spears axle works, at the corner of Twenty-seventh and Main streets, will shortly begin and the building when completed will give employment to an additional number of men. The building will be of brick and iron, and will be on the vacant lot on Twenty-seventh street, east of Main.

THE NEW WAY.

A GREAT SUCCESS FOR FITTING ALL KINDS OF EYES WITH GLASSES.

Our new scientific method of examining the eyes and fitting glasses without putting drugs in the eyes and making the patient blind for a week, having them sit for hours looking at stars and trying to fit themselves until they become so bewildered they cannot tell what they can see. We fit the eye by examination without depending on the patient and know when they are fitted correctly.
